Dear Friends in Law Enforcement,

I would like to take this opportunity to thank you for requesting a copy of "To Protect and to Serve..." and to also tell you a little bit about The Knight's party and what a police officer's commitment is to this movement.

Contrary to what many minority groups say about whites who have racial pride, I can tell you from first hand experience, that these accusations are false. Having been a police officer for the past 13 years, I have seen the injustices that officers face on an everyday basis. I have been on the call where I was called a "racist" because I was doing my duty while arresting a member of the minority community for selling drugs. I've been spit on and called the lowest form of life because I wear a badge and have taken an oath to uphold the law without bias, to the best of my ability. Like you, I've encountered the problems on the street and have enforced the laws that have been twisted by the judicial interpretation of our judges and legislature, in order to meet the rights and needs of criminals instead of the law abiding citizens in our country.

The realization of just how bad our society has become, came to me one day after responding to a man-with-a-gun call in a section of our city. I was greeted by approximately fifty African-Americans who began cursing me and blamed me for the 400 years of oppression of the black American. I thought to myself, "Why am I to blame for this? ...I had absolutely nothing to do with slavery!" I like many other white Americans, are being made to feel guilty everyday because we are white. This is why The Knights Party is fighting for the rights of white Americans and would like to see Christian values brought back to our country. The Knight's are not racists (Regardless of what people may say) nor do we claim superiority to anyone. But we are proud of our white heritage and we believe that each race should be allowed to separately govern their own affairs - this is called self determination and it is fair to everyone.

The Knight's Party supports law enforcement one-hundred percent and understands the chaos that officers face each day. They realize that in order to bring Christian morality back to America, our politicians need to work with the foundation that our constitution was built on, instead of against it. I hope that by reading this booklet, it awakens something inside of you that is trying to say "It's time we bring back Christianity into this country and let's work to keep it moral, safe, and without oppression from the corruption that plagues our government".

I hope you enjoy the booklet and please feel free to contact The Knights Party if you have any questions pertaining to our movement.

Sincerely,

*A fellow police officer and member of The Knights*
