

**So You Think Non-White
Immigration won't hurt you?
Think Again...**

Non-white immigration, whether legal or illegal is destroying the cultural and economic base of America. We have two different standards of living. Cheap immigrant labor may look good for the bottom line, but you can only betray the working and middle class so long, before this largest of consumer groups can no longer afford your products or services. Who wins when you can't sell? No one!

Why Does Big Business Back Illegal Immigration? Why do they Send Even More Jobs Over seas? Why Does Congress and the President Care More about Jobs for the Citizens of India and China than they do for YOU? Its all about the Votes and the Profit Margin – Are these really the principles America was built on? We don't think So. Its Time to Protect the U.S.

Protect American Jobs
