

The Knights Party Platform

Abolish All Anti-Gun Laws and Encourage Every Adult to Own A Weapon!

The ninth plank of The Knights Party platform is to abolish all anti-gun laws and encourage every adult to own a weapon. The cure for crime in America is not take guns off the streets but to put more guns ON the streets. Violent criminals should be punished, but law abiding citizens should be allowed to defend their homes, business and families with out fear of the federal government treating them as the criminal.

In April, 2012 a 78 year old man was attacked by six Black youth. This attack happened in Toledo, Ohio and is typical of what has come to be known as a "do it for Trayvon" assault. Dallas Watts was the victim of this Black-on-White assault and he says that his attackers were shouting, "Get that White man! This is for Trayvon! Kill that White man!" This attack followed a rally in a nearby neighborhood to support the family of Trayvon Martin. These Black youth, whipped into an anti-White fervor at the rally, set out to exact revenge on a White man. Descending upon the victim, the Black youth kicked, punched, and were determined to kill the elderly man. The assault was interrupted by a passerby who was able to scare away the gang of Black youth. Dallas Watts is a Vietnam veteran and lived his whole life in opposition to firearms believing that he was living a lifestyle in opposition to violence. Narrowly escaping serious physical injury, Mr. Watts is quoted as saying, "What happened to me ... down here on the corner, that changed my perspective on humanity" and he now desires to own a firearm for self protection.

Consider the case of a Hamilton County, Indiana man who was handcuffed, robbed, and beaten in his own home. A 66 year old man was robbed of more than \$8,000.00 dollars worth of property by two men on February 24th, 2012. The victim did not have a firearm on him at the time and was quoted as saying, "They'll never get me in handcuffs again ... I'm going to have a gun, too. They're not going to catch me off guard again." The victim in this case is expressing his desire to have and carry a concealed firearm as part of his self defense plan. Both of these examples show how important it is to allow people the choice to own firearms. The Knights Party is pro-choice and allows everyone the liberty of choosing between self-reliance and reliance upon others for personal safety. The Knights Party believes that all Americans should own a firearm, however The Knights Party recognizes that it would be counter to freedom of choice to legislate that all persons be required to own a firearm. Because The Knights Party respects your right to choose to own firearms, we work to protect the right to own firearms for the day that you choose to become a firearms owner.

Firearms for a safe city! Firearms for a safe America!
