

# President Obama, YOU Built It

---

President Obama seems intent on telling Americans that they didn't build their success; the government did. President Obama, this is what you and your big-government allies in Congress built:

The \$16 trillion debt and the \$3 trillion-and-counting government takeover of health care.

Trillions in bailouts for the biggest, most profitable banks and companies in the world.

The Food-Stamp Society and the corporate welfare economy that allows you to take our money and give it to the richest, most profitable companies in the world.

Failed "green energy" initiatives. Without you, we wouldn't have seen the wisdom of throwing \$500 million down the drain at Solyndra.

Tell President Obama he built these problems, not America's businesses.  
**PRESIDENT OBAMA BUILT PROBLEMS, NOT BUSINESSES**
