

properly again, other nations can watch and learn and strengthen themselves through hard work.

More beliefs:

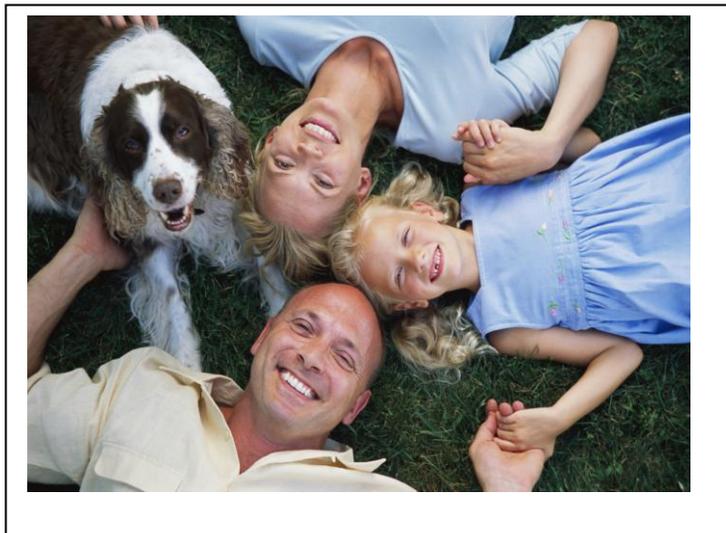

We believe in racial diversity and racial integrity. We believe each race should be able to practice self-determination. We believe in strong family values and a strong work ethic. We desire to uphold the historical foundation of America which is the Christian faith. We believe in law and order and that the community policeman should not be bullied into an international police force. Neither should their effort to arrest criminals be hampered through absurd notions that they are racist for the use of so-called racial profiling. It is as ridiculous as asserting that policemen looking for a male suspect or a female suspect are guilty of gender profiling. We believe a woman has a right to be safe in her own home and should not live in fear of intruders or abusive husbands. We believe the modern prison system has failed miserably and we desire the restoration of Biblical judicial principles. The prisons are breeding grounds for tougher criminals and an education experience in criminal enterprise. Under Biblical guidelines sex offenders and murderers are not afforded the opportunity to repeat their crimes. Petty criminals work off their penalty unless they become habitual. Child abusers, whether men or women, and wife abusers would receive public acknowledgment of the foul deed, a guilty verdict by a court of law and an attitude adjusting and public lash to the back. Counseling may be fine for some, but the fear of the lord is what many need most. Respect for authority is severely lacking today.

I could continue, but the plain fact is, Jesus Christ loves you and he loves me. He desires for all of us to live peaceful and happy lives free from want, poverty, and heartbreak. The eradication of Biblical principals and the white race that has historically supported it, is harming our society.

If you are a white man or woman, we invite you to take a closer look at our true beliefs, not those claimed for us by anti-Christian zealots who misconstrue history and the truth. If you are not a Christian we urge you to ask the lord into your life and begin living a Christian life. Because we believe in racial diversity and 'kind after 'kind' we do not support interracial marriage or integration. But this doesn't mean that just because you are not white that you should not follow the guidelines of the Christian faith. You should take pride in the accomplishments of your racial family and work for the advancement of your people. I just ask for that same right to be afforded to my racial family. That is what unity is really about - getting along by allowing each other to have their own space, to cultivate their own culture, and learning what we can from each other -but never infringing upon each other.
