

Knighthood Agreement

Dear Squire,

Please read the following *Knighthood Agreement*, sign it, return it with the other enclosed form (Knighthood Oath) and mail to headquarters during the last week of probation. You can find this date on your return form.

We want you to be aware that becoming a Knight is a very serious endeavor. You should read this entire agreement very carefully and sign it only after considering that this should be the most important decision you ever make. As a Knight you should always remember who you are and what your agenda is. This should guide you through the remainder of your life. What can YOU do to promote the Party and our goal of White Christian Political Revival?

The following is to be understood by each and every Knight. We are not interested in making those who merely claim support of our program into Knights. Knights are those who are either willing or able to perform their duty in a more concerted effort. Therefore we expect more from Knights than others.

We have to keep in mind that not everyone has the same talent - whether it is a talent in auto repair, in farming, in homemaking, in art or in political leadership. Therefore I don't need to be a good mechanic to appreciate the ability of those who are and be willing to follow their lead if I should be assisting one who is. So with the same principle in mind, Knights must first and foremost have faith in the philosophy and be willing to follow even as a good soldier follows the battle plan given to him, even when he may not fully understand it or have an understanding of the total objective.

We are looking for Knights who have faith and are willing to work and struggle for the objective. Knights, you are associating with an established program and plan of action. Therefore you must understand that our philosophy and tactics are not open for discussion or debate.

We are in the 6th era of the Klan and you are part of a nationally organized network. Anonymity for you the private Klansman or Klanswoman is the key. Do not underestimate the strategy of the 6th era Klan. We must use all legal means necessary in order to bring about a return of lawful government in this nation and we must not let the changing racial demographics deter us. You must set your entire focus on what you personally can do to promote The Knights. You must stand behind the leadership and its decisions and not hesitate when requests for assistance are given. Communication during this era is very important.

You represent a link and your white brother or sister in another part of the country represents a link. Through headquarters we are all linked together throughout this great nation. You must work to be a strong team member and not a weak one. You will benefit as much from the efforts of a fellow Knight 2000 miles from you as he or she will benefit from your effort. Our combined efforts will move The

Knights closer to our goal. We must force the issue and bring the nation's attention to the dilemma facing the white race.

Our strength lies not in our numbers, but is only as strong or as weak as our numbers themselves choose to be. You must respect headquarters and our National Director Pastor Robb enough to support The Knights' program whole heartedly and begin by asking what YOU can do for The Knights - **not** what The Knights can do for you.

You have educated yourself about the basic beliefs of The Knights. You know the political platform of The Knights. You know that we want to see White Christian men and women running the government. You know that we want a White Christian nation for our children to grow up in and for our families to prosper as our heavenly father intended. You know these are our goals. You know that our National Director Pastor Robb has not only been involved but has been a legitimate leader in the White racialist movement for over 40 years. And our National Organizer Rachel Pendergraft has been an established leader and spokeswoman for 20 years. These things upon signing your oath for Knighthood, you know.

Will you respect these facts and faithfully do all that you can to promote The Knights? Let's be honest. Are you still looking? Are you still writing to other groups or organizations just to maybe see "*if they're doing it better*". If you are, then perhaps you aren't ready to become a Knight. That is a decision you need to make.

As a Knight you should always be respectful of your leadership. If you disagree with a policy of The Knights or with a decision that is made you should not discuss this with fellow associates. These are the seeds of dissension. Nothing good can come when two or more members sit down and begin "discussing" or complaining about their personal grievances. This is conversation that should remain between you and headquarters. Long after the "problem" is resolved your communication and words to another Klansman will still linger and will forever contaminate their loyalty and the ultimate success of our political program! If you have a grievance that after thoughtful prayer you are still left with, then you should share your concerns with headquarters in writing.

Your confidence is assured. We do not require "Blind loyalty." We humbly request and work for your respect. We do not claim perfection. We desire to train men and women who will be courageous, upstanding, dutiful, uncompromising white Christian (zealots) if you will. We want Knights who are leaders by example. This demands respect and loyalty. You show your leadership capabilities by the degree of respect you show your leader. After all, how can anyone be won over to the movement if the example they are shown is a disrespectful Klansman airing his grievances for anyone who will listen. This shows the maturity of a child and not a person capable of assuming any authority or real responsibility in the area of Klan recruiting or future leadership positions when the next phase or fullness of the 6th era arrives.

We have been in the movement, we have organized within the movement, and we are veterans of the movement. Pastor Robb, Mrs. Pendergraft and headquarters DO have the (for lack of a better word) secret to political victory. We DO have the key to success. We DO have the knowhow and expertise.

We DO have a clear, direct and organized strategy. You as a Knight must have faith in that vision - faith in the leadership - and faith to know that we DO know what we are doing. Without that loyalty for full support. your efforts will never be what they should be.

A Knight should be a leader in their community. That does not mean to be public with your Klan association. It means to set an example. It means to be a positive example of a dignified white Christian. You should stick out in the crowd not because you are a "toughie" and can spout hateful sounding rhetoric to anyone within earshot, but because in a world of degeneracy and hate you are the example of a positive upbeat, honest, hard working, neighborly, nice Christian man or woman.

When speaking up on behalf of your beliefs in discussions you will do so in a reasonable, polite, easy going fashion. Remember that when speaking with the early Christians, Christ did not try to beat his beliefs over a person's head, but simply lived a good example of what he preached and showed love for his people. How many times have you seen so - called Klan or white nationalist "leaders" on TV baiting the crowd by yelling obscenities and acting like white trash? Some people find this behavior amusing. Amusing for a circus show it may be, but as an example of a serious minded individual who has the brains, commitment, and ability to lead a true political attack on the established traitorous parties in Washington D.C., they definitely are NOT! They will never be serious political leaders.

Knights should continually remain on guard for paranoia tactics used by our enemies against us and other believers. We have seen on many occasions a good well intentioned Patriot new to the white racist movement rendered totally useless because he or she became "overloaded" on paranoia that is circulated within the movement. A newcomer to the racist movement in his or her quest for knowledge will often times be receiving information and literature from every imaginable "type" of racist group in existence. You should be warned that our enemies purposely "leak" so-called "reliable" information throughout the movement which many racists themselves then pick up on and finish circulating for our enemies. Like a poison, our people are then paralyzed into inaction by fear. What a Knight should fear is when he or she has to answer to God and explain why they were not more dedicated, why they gave up. We are to be courageous. We are to be good examples to our children and friends and family. We are to wear the armor of God; a Knights' armor.

In the fullness of 6th era we will have only one window of opportunity. The hour is late for our people and there is no longer any room for mistakes or for the foolish behavior that is often seen by those who claim to represent white America. As a Knight you must work to keep The Knights visibly present in your community. You may be the only one there and so whether you like it or not, you have been given a greater responsibility. It is not necessary that you be public. In fact, we advise our associates to keep their association private, except for close friends. Remember it is not necessary for everyone to become an associate of the Klan, it is only necessary that we maintain a stable enough association to help educate the public on important issues.

Those who are Knights and indeed all of our associates must remain as a submarine. Distribute your literature, keep a Klan presence, but don't reveal your affiliation. There is no need. You are as a submarine. It's like an iceberg, most of the mass is below the surface, with only a small head showing itself. Pastor Robb, Mrs. Pendergraft and the national office stands out above the water to speak out in behalf of our people and our cause. We don't need a hundred spokesmen. We only need a few of prominence. But below the water, below the public eye there is the mass support and the strength. The

time will come for community leaders to be outspoken and to let their affiliation be known, but that time is not upon us. By adhering to the plan, we are in fact grooming men and women to be in such a position. To do so now is premature.

You may not understand. You may want to wear a Klan t-shirt everywhere you go. When you're out of town it may be fine. But in your town, in your community, secure your job and provide for your family. This way you will be able to continue leaving Klan contact cards around, distribute literature, and participate in and initiate media campaigns. No one will know where it came from other than that the Klan is in the vicinity. After all, are we not the invisible empire? Among your close friends, you may want to recruit a few associates or serve as a contact for other new members.

Yes, we are a submarine, but we also must take our message of hope and deliverance to the public and through your support, Pastor Robb, Mrs. Pendergraft and the national office can be most effective in this endeavor. Our people walk in darkness, we must show them that we care - that we love them. We are not a gang of toughs, we are Christian men and women who are committed to a cause of national redemption of our nation. Fear is not the tactic we use to seek support of the people. It is love.

We have the most articulate spokesman in the movement as our national director - a fact that even such liberal news sources as Time and Newsweek admit, as well as extremists in the anti-Christian Jewish Anti-Defamation League and Klan Watch.

We can all be proud of our leader. We must do everything within our means to get our message to the people before it's too late and Pastor Robb can deliver that message most effectively. A tremendous speaker and strategist, Pastor Robb can articulate the message of White Christian revival in such a fashion that the common middle class Christian man and women can understand.

It's a shame that more people don't have the opportunity to hear him speak. We must give them that opportunity. Likewise, Mrs. Pendergraft, a powerful speaker, writer, and strategist, brings a new dimension to the white nationalist movement.

Our people are in for the fight of their lives. We will either win and usher in a bright new future for our children or we will lose and bring our children a damnation exceeded only by the fires of hell. We cannot run from the contest before us. Providence has not provided us the luxury of a choice. Our children will remember us either as a courageous contender for their future or remember us as cowards who fell upon our belly before those that hate us.

We must face the reality that at any moment, maybe tomorrow, and maybe in twenty years, but at any moment our present system in this nation WILL collapse. Like a hapless victim of a giant parasite, America's moral and cultural strength is being depleted. America is not dying of old age. America is being murdered! Her heart - her soul is being ripped out of her. It is in this chaos that God will speak to the nation again. And once again, the ears of America will listen to the voice of her God and out of those ashes will arise, like the Phoenix bird of Egyptian mythology the great Ku Klux Klan - the PARTY of White Christian America to lead her out of destruction to her destiny - a white Christian America. It will not be done through the power of man, but through the loving kindness of our God who loves our people. We will simply be the tool in God's hand.

In speaking to our people in the days of old, The Bible records in the book of Isaiah that God says that just as a mother cannot forget the child that nursed at her breast, neither shall he forget us.

Again we want to reiterate the necessity to remain strong and focused. we must endure. We must be vigilant. Are you ready to be committed or will you just simply get bored sometime in the future and decide it's not as much "fun" as you thought it would be - fighting for freedom. We must pray for the strength to endure the loneliness, the misconceptions, and the lack of understanding we may receive from those unsympathetic to our cause. We must stand behind our leadership and have the faith to unselfishly support the national office. You must insure that your link does not become slack but is always quick to support, never to let negativity get in your way and to never let fellow Knights down by breaking the chain of unity.

1. I understand that The Knights Party is legal and law abiding and that I will never be asked to commit an unlawful act.
2. I understand that (The Knights) (The Knights Party) and the (Knights of the Ku Klux Klan) are one and the same and can be used interchangeably just as the GOP and the Republican Party or The Grand Old Party and that these titles are the legal trademarks of The Knights Party.
3. I understand that I am not an official representative of The Knights Party. I agree to follow the guidelines as set by headquarters to the best of my ability and to do what I am able to promote the interests of The Knights Party and its ultimate goal of political power and White Christian Revival.
4. I understand we are a political party building a strong foundation nationwide. We do not run candidates at this time so that all financial resources can be invested into the grass roots level - therefore we do not fall under the federal political party guidelines. Unlike the other political parties where they have to make known the names of contributors to the Federal Election Commission, we do not. I understand that my anonymity is very important to the national office and to the success of the 6th era Klan.
5. I understand that I must have faith in the decisions made by headquarters in regard to political strategy, propaganda, etc.
6. I understand that the leadership of The Knights does contribute its times and energy on a volunteer basis without compensation. Surely if they are willing to devote so much time to this cause, then I should be able to follow their example and contribute at least 10% of my weekly income to the national office to assist in financing our fight for political power. *
7. I understand that we are a Christian organization.
8. I understand that we are not to commit violent or unlawful acts or to encourage others to do so. I also understand that we must be eternally vigilant and that those who do encourage such acts are to be suspect of being an agent provocateur with the intent of creating entrapment and damaging our program, leadership and membership.

9. I understand that I am a part of a nationwide network and though I may or may not be in contact with others, I will fulfill my responsibility by being the link in my neighborhood, community, city, or county. I will strive to never break our nationwide chain of unity I will be dedicated to the other Knights.

10. I further understand that if for any reason I should violate my oath and this agreement and quit the Knights of the Ku Klux Klan for any reason what - so -ever, that I will not attempt to start, lead, organize, or participate in any kind of business activity using the name Knights of the Ku Klux Klan. Nor will I use any literature, material, or any other item that is considered proprietary and is protected by law. To do so will constitute a violation of this agreement and could result in legal proceedings against you.

*(Note: Many people attend churches where the pastor is absolutely terrified of ever speaking a message of racial warning to his congregation. Privately he may say interracial marriage is a sin, but will not say so publicly. If your pastor will not speak publicly about the most important issue facing our people and your children, then your pastor is ignorant and does not deserve your weekly contributions and tithe or he is a coward and does not deserve your weekly contribution or tithe. Some of you generally give 10, 20 or more dollars to such churches who have turned from the faith of our forefathers. Keep in mind that The Knights Party is not considered a "church" as such, it nevertheless is one, in that the Greek word for church is Eklesia and means "*called out ones*." We are called out believers in Christ speaking a message of national revival, calling our people back to the laws of our God and our Christian faith. Your tithes and contributions toward this ministry of white Christian revival is most needed. Those of you who are sincere and dedicated Christians in the truest meaning need to pray about this matter and ask the Lord if your support of a minister who invites non-whites to the church, who sends money overseas to mission fields, while our own white children are fearfully forced to endure the horrors of integration, and who would never consider speaking about the sins of integration and intermarriage are really worthy of your financial support through the giving of your weekly tithe. You need to also consider that by doing so you are actually helping to support those who are helping along the program of white genocide. Yes, even the little country churches are guilty. If you really want to help promote Christian revival in America, then we can suggest no better place than The Knights Party and its national message of White Christian Revival.

The Knights Party

A New Party for a New Generation
