"Last hope for America"

For Klansmen, Klanswomen,
Pages, Squires, and Knights

Not for Self - but Others

Appellation

This organization shall be styled and denominated, The Knights Party.

Creed

The Knights Party, reverently acknowledges the majesty and supremacy of Jesus Christ, and recognizes the goodness and providence of the same. And further more we recognize our relationship to HIM as being the Sons and Daughters of the living God. We furthermore acknowledge America as the regathering place of HIS people and before HIM we humbly bow and give thanks,

We recognize that this nation was founded upon those principles recorded in Holy Writ and to those principles we submit ourselves. We furthermore acknowledge that as the Scriptures say, the nation that forgets God will be turned into hell. Upon finding that this indeed is the state in which we now find ourselves, we position ourselves on the idea that only by a return to the laws of our Eternal Father shall we as a people and a nation find strength and find deliverance.

Ideals The Knights Party Stands for:

1. ***The White Race:*** *The irreplaceable hub of our nation, our Christian faith and the high levels of Western culture and technology.*
2. ***America First:*** *First before any foreign or alien influence of interest.*
3. ***The Constitution:*** *As originally written and intended. The finest system of government ever conceived by man under guidance from Jesus Christ.*
4. ***Free Enterprise:*** *Private property and ownership of business, free enterprise, but an end to high-finance exploitation.*
5. ***Positive Christianity:*** *The right of the American people to practice their Christian faith- including prayer in schools.*
6. ***The Family:*** *We believe that the family unit, as ordained by God, to be one of the most important ingredients in the preservation of White Christian civilization.*

Character and Objectives

This is an institution of Chivalry, Humanity, Mercy, and Patriotism; embodying in its genius and its principles all that is chivalric in conduct, noble in sentiment, generous in Christian manhood and womanhood, and patriotic in purpose; its objectives being:

First: *To protect the weak, the innocent, and the defenseless, from the indignities, wrongs, and outrages of the lawless, the violent, and the brutal: to relieve the injured and oppressed; to secure the suffering and unfortunate.*

Second: *To protect and defend the Constitution of the United States, and all laws passed in conformity thereto, and to protect the states and the people thereof from all invasion from any source whatever. White Christians in other nations should work toward Christian government where they live as well.*

Third: *To aid and assist in the execution of all constitutional laws, and to protect the people from unlawful seizure, and from trial except by their peers in conformity to the constitutional laws of the land.*

The "Knights" is political in nature. Not a mere "social association " but a dynamic, crusading White movement of worldwide historical perspective seeking the establishment of a Christian order upon the earth. It is a nonprofit, legally recognized institution working to rebuild our collapsing society on the basis of the principles: Honor, Racial Integrity, Honesty, Duty, Courage, Brotherhood, Sisterhood and Patriotism, Indeed "The Knights" is more than just a movement but rather a revival of our Christian spirit.

MISSION

This organization is formed to advocate the protection and advancement of white Christian men, women, and children. It shall promote grassroots organization among its members for the purpose of running Klansmen and Klanswomen for public office on the Federal- state. and local levels at such time as organizational size warrants it feasible.

Our Platform

** Recognition that America was founded as a Christian nation. As James Madison, known as the "Chief Architect of the Constitution", so eloquently stated; "We have staked the whole future of American civilization, not upon the power of government, far from it. We have staked the future of all of our political institutions upon the capacity of mankind for self-government upon the capacity of each and all of us to govern ourselves to control ourselves to sustain ourselves according to the Ten Commandments of God."*

**Abolish all anti-gun laws and encourage every adult to own a weapon. The cure for crime in America is not to take guns off the streets but to put more guns ON the streets. Violent criminals should be punished, but law abiding citizens should be allowed to defend their homes, businesses and families without fear of the federal government treating them as the criminal.*

**Actively promote love and appreciation of our unique European (White) culture. We must recognize it as the bedrock of American liberty and self-government.*

**Outlaw the purchase of American property and industry by foreign corporations and investors. The land belongs to Americans and their posterity and should not be up for sale.*

**Drug testing for welfare recipients. We recognize that not everyone receiving assistance is on drugs, but those who are should not be receiving your tax money. Welfare should be for those who need it - not those who abuse it.*

**Repeal the Federal Reserve Act. This illegally passed law gives control of our money to a private corporation. We must return to debt free money - interest free currency issued by Congress as prescribed in the U. S. Constitution.*

**Balance the budget. Just as any family must balance their budget so must the federal government. Accordingly all present federal debt owed to the criminal private Federal Reserve Corporation should be canceled.*

**Rehabilitate our public school system. We must remove the humanist influence in our schools and teach fact based curriculum to further the students' knowledge not someone's opinion. Parents should have the option of private or home schooling if they prefer and students should be free to practice their Christian faith in the*

**Repeal the NAFTA and GATT treaties. These "laws" given to us by the Democrats and Republicans are damaging to the American worker and will eventually put millions upon millions into desperate poverty.*

**Put America FIRST in all foreign matters. The first and only concern of our government (or of any other) should be for the citizens of the United States (or their own respective nation)*

**Cut off trade with countries that refuse to establish strict environmental laws. We should promote a fair system that allows for a clean environment in our own country and does not interfere with the free enterprise system. We also promote an aggressive search for and use of non-polluting and clean energy sources such as solar energy.*

**Abolish ALL affirmative Action programs The federal government has enacted programs and laws designed for the exclusive discrimination against those of White European ancestry. Promotions, hiring and scholarships should be based on ability and not upon a person's race.*

**Put American troops on our border to STOP the flood of illegal aliens. America is being overrun by illegal immigrants mostly from nonwhite countries who do not share the Christian European values of our nation's founders. All immigration, both legal and illegal should be stopped immediately until America is once again upon a firm foundation. We do however, support the immigration of our white brothers and sisters from countries such as South Africa where they are brutally controlled (far worse then what we can imagine) We support the Pace Amendment, drafted by Knights' business attorney Daniel Johnson from his office at the World Trade Center in Los Angeles, which will limit legal immigration to those of European heritage.*

classroom. We must remember that the original purpose of public schools was the teaching of general Christianity and the ability to read so that each person could read the Bible with skill.

**A flat income tax should be introduced to allow for the funding of community, state and federal projects. This should be the one and only tax allowed. It is the only fair way to collect revenue and does not discriminate against any economic class. It is also Biblical.*

**All foreign aid should be stopped immediately. Hundreds of millions of dollars are sent overseas every year while our people remain in need, our schools need funding, our infrastructure needs rebuilding and our citizens fight to keep their bills paid. Americans should come FIRST!*

**Pro-Life legislation should be passed. Abortion is government legalized murder. While we stress the need for a moral and Christian lifestyle, we applaud those women who find themselves pregnant outside of marriage and choose to give life rather than murder their child. Compassion and Christian friendship should be given these women and marriage encouraged. However, this does not include white women raped by non-white men. They should not be forced to carry a child of mixed race. This is not sanctioned by Christ and it is a clear case of self – defense.*

** We support the death penal8 for those convicted of molestation and rape. The only way to put an end to this cycle of abuse is to stop the sexual abuser once and for all. This law should exclude statutory rape defined in the Bible as "seduction" of a consensual young adult male or female in the older teenage years.*

** We support a national law against the practice of homosexuality. This is a Christian nation and the Bible condemns homosexual activity and the perversion of our society which it encourages.*

** We support the placing of all persons HIV positive into national hospitals. While the AIDS virus is almost inclusive to homosexuals and those not of European ancestry, many innocent people have contracted the virus. Despite the moral character of a person, the virus is still highly contagious and deadly. EVERYONE WHO GETS IT eventually DIES! AIDS carriers should receive proper medical care while a cure is being researched. This is the only way to stop the spread of this disease. Likewise no one with AIDS should be allowed into occupations that enable them to come in contact with the general public.*

** Restore individual freedom to Christian America. People should be allowed to hire who they want, live where they want, go to school where they want and practice the Christian faith as they please. Likewise people should be able to sell to whom they want, rent to whom they want and socialize and conduct business with who they want. The government should not interfere with the everyday lives of White Christian Americans.*

** We support the voluntary repatriation of everyone not satisfied with living under White Christian rule back to their native lands. The brightest and best minds of all races will be able to run their own affairs without outside interference. To support their efforts we will provide the financial and technological resources needed for a limited period of time in the building or rebuilding of their independent nations. After that their success or failure is totally up to them.*

**Everyone who can work. should work. A workfare program should be established as opposed to the present welfare program. Recipients should be required to perform community work and many can assist in the rebuilding of America's infrastructure. The Federal Government should not be required to help those who will not help themselves. Assistance should be given for a limited amount of time.*

We furthermore recognize that with an end to the insane economic policies which are currently engaged in this country, many families would not be forced into the welfare system in the first place. This should not, however, be imposed upon white Christian mothers who may be left widows or have been deserted. Children and society need God fearing mothers in the home a much larger contribution to Christian society than involvement in any outside work program. Home businesses should be encouraged for many. This is Biblical.

**We support a return to parental authority without the government interference in the raising of our children.*

** We support the free enterprise system. We must deregulate business while curbing the excesses of big business and monopolies including corporate farms which undermine the family farm that is vital to this nation.*

**We respect the right of homeowners and that no one should ever be forced from their home for the non payment of taxes. Property taxes are not Biblical.*

**We advocate a strong defense department to safeguard American citizens. It should consist of volunteers of both men and women with women being excluded from combat position and any position that would place her in harm's way. Furthermore we believe that the defense department's sole mission should be to defend our borders and not those of any other country or nation including the interference into their private affairs.*

** We support all veterans who have chosen to defend our nation and its citizens. We should find those that are missing and take care of those who have come home.*

Our Goal

What is our goal? This may sound like a foolish question to most. Our goal is to wake up white people everywhere to the problems that are facing our race and nation, you may say. But is it really?

No it isn't. It is only a step we must take to achieve our ultimate goal. Political Power. Most people are aware that something is wrong. They just don't know what it is. They are unaware of the literal betrayal by those who hold office in the Federal government.

They are unaware that white people are to be the scapegoats of all ills of society and that those in power envision an America without White Christians.

We are entrapped by a government who no longer abides by the wishes of its citizens, or at least its White citizens. The entrapment that the White citizen faces is very deep and has been woven around them tightly and discreetly without their knowledge. But it's not our goal just to wake them up. Our goal is Political power.

The Knights Party is building a grassroots movement of leadership throughout America, men and women that the American people can follow when they finally come to the realization that those now in Washington D.C. don't represent their best interests.

It is not enough for white people to merely support a half way decent candidate for public office - here or there. The Federal government needs a total changing of the guard, a renewal and rebirth[a return to the government as intended by our ancestors who built this nation.

*The time in which we live is very exciting and you should be proud to be a supporter and associate of this grassroots movement to take back America. The Knights Party will, in the years to come, become recognized by the American people as **THE WHITE RIGHTS MOVEMENT!***

Where ever they live, whatever their personal Christian denomination may be, no matter what present political or fraternal organization they may be with, everyone should support The Knights as the political party of the future and the last hope for America.

The Knights Party, realizing that to achieve true security for our people we must achieve political power in the United States will:

1. Become the leader of the White racialist movement (done)

2. Strive to become the representative and driving force behind the White community

3. organize and direct white people to a level of activism necessary to bring about apolitical victory

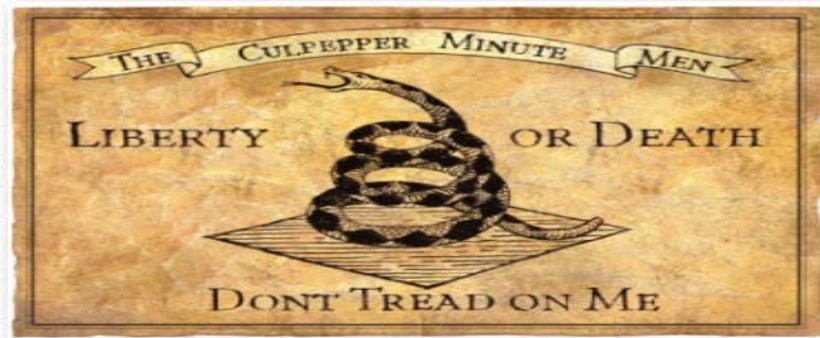

When The Knights, through our campaign to gain public recognition as a serious and well organized association, starts catching the eye of scrutiny by the politicians as a political threat to their treason, then our next phase toward political power can begin.

We don't just have a goal or a dream. Our organization is the only one that actually has a plan, a program.. We will become a serious contender in the political arena and win our country back. We do not lose hope because some assume we can never get the votes due to the increasing non-white population as well as many degenerate whites - we look to Christ to pave the way. The largely non-white status of AIDS carriers (a plague) may be one way God has designed to increase the odds in our favor. All scientific and medical experts agree that within 25-30 years AIDS will have worldwide catastrophic consequences to the non-white races - coincidentally (?) at about the same time whites will be officially a minority in the U.S.

Nothing is out of His reach. No problem is too great. Those who think they must start an armed rebellion at this juncture are only fooling themselves. As He parted the Red Sea or sent plagues to Egypt - His divine power will make way for us. No question about it. It will be done.

Political power will be ours because we follow in Christ's footsteps and it is His will. He will grant victory to those who overcome and all the world and nations will be blessed subsequently.

However, while we recognize that Christ and His government (Thy Kingdom (government) come, Thy will be done, on Earth as it is in Heaven) will reign supreme - He is testing each one of us – our level of commitment, our loyalty, our effort - are we really sincere -not in words only - but in our actions. Will we do as our founding fathers and mothers - stand up, work toward, and cherish a Christian government?

Standards

- 1. **The Knights Party is a Christian organization** which seeks to project a Christian witness before the world. All associates may not be perfect, but they truly have a love of our Christian faith and all that it represents.*
- 2. **The Knights Party is honest and open** as to its beliefs, especially concerning racial matters. To win victory for an idea, that idea must be stated, promoted and defended. By The Knights open stance on the issues, the men and women we attract to our movement are not cowards or hypocrites, but are willing to boldly face the tasks before us and fight until victory is ours.*
- 3. **The Knights Party has a reputation of victory.** It is well known that the Klan saved the White south from the hatred of the federal government, carpetbaggers, scalawags and Negroes after the period of time known as "reconstruction". Today, The Knights has won case after case in both state and federal courts upholding our constitutional rights.*
- 5. **The Knights Party has its emphasis on action and education** and is not merely a " publishing organization. "*

6. **The Knights Party is deeply concerned about the youth.** The young people of today will determine the kind of nation we will have tomorrow. Any movement that wants to make history must win the young and mobilize God fearing fathers and mothers to do so.

7. **The Knights Party is fighting for an entire outlook of life, a philosophy of living.** We are not only crusading for ourselves and our families, but are the vanguards of a Christian ideal- human quality!

8. **The Knights Party name and symbol break through the paper curtain of the media.** It brings us to the attention of those Americans who would not know anything of us. Before you can convince someone about the correctness of an idea, you must first reach that person with your message. Being organized as a Ku Klux Klan party has tremendous value.

9. **The Knights Party is national in scope.** There are associates of The Knights in small towns and big cities around the nation. We are all part of a team of volunteers who love their white brothers and sisters. Through organized units or the thousands of Knights at-large, we are able to take a message of hope and deliverance to our people.

10. **The Knights Party leadership and spokesmen are dedicated and experienced in the struggle for White Christian Revival.** Speakers for The Knights, Pastor Thomas Robb and Mrs. Rachel Pender graft, have years of experience in the racist movement spanning over 60 years combined. Likewise the men and women who serve in positions at the national office are fiercely dedicated and have been working on behalf of their white brothers and sisters for many years.

11. **The Knights Party conducts itself in a professional manner.** We seek to have the most professional of materials and to be timely, efficient, productive and effective. We strive to develop and advance ourselves and to perform the best that we are able for any given task.

12. **The Knights Party is progressive in thought and planning.** We continually look toward the future in our strategy and work constantly to improve ourselves and our ability to represent our white brothers and sisters.

13. **The Knights Party stands in support of the law enforcement community.** While there may be those who usurp their position of authority to harass law abiding Christians - we must remember that the average law enforcement officer isn't a part of a giant conspiracy - but are well meaning people who love our country and want to see safe streets, homes, and schools. White Christian police officers are often on the front lines dealing with degenerates of every type.

They are often faced with globalists who want to see an end to the community policeman and replace them with national police forces and a central command. White police officers are faced with affirmative action, inner-city thugs, and ACLU types who want to prosecute them for the "terrible" offense of racial profiling. No, the police are not our enemies - they should be regarded as friends, some as associates, and generally good people who really have the community's best interests at heart. They see the race war against whites first hand and many are sick and tired of it.

The symbol

The symbol of the Klan is the cross wheel. It is simply a cross in a circle. It is directly derived from the Klan name and from white history as the cross wheel is found in every white civilization.

In the cross wheel we see the cross of Jesus Christ, the wheel of creativity, the circle of unity, motion, and also the ancient Aryan symbol for the sun or light. Over the centuries no symbol has come to represent the totality of the white race better than the cross wheel.

The traditional Klan red, white and black patch called the "blood-drop" is a form of the cross wheel.

The Knights Banner

The cross wheel can be seen in the official banner of The Knights. The cross wheel is centered in a white diamond on a red field. The white represents the purity of God's love and the red represents the unifying blood of the white race. It was designed by National director Thomas Robb in 1983 and is exclusive to this organization.

The Fiery Cross

The fiery cross is used as a Klan symbol representing the ideals of Christian civilization. In no way does it represent a desecration of the cross, for it actually represents the lighting of the cross – the truth and the light of our sacred Christian faith. It is the blazing spirit of Western, Christian civilization. It must also be said that in Scotland the fiery cross was historically used as a symbol of opposition to tyranny and obedience to God - not as a Hollywood stereotyped scare tactic. Those who have used it for wrong reasons and now jeopardizes its use for all of us - should be ashamed!

The Robe and Hood

The Klan robe and hood has never been used by the Klan for wrongdoing. In many of the old Christian rituals, as illustrated by the carrying of the Pastas in Spain, the hood was worn as a symbol of humility, of anonymity in doing good works. This was the conception of the hood when the Klan was ably led by General Nathan Bedford Forrest, and this is its true meaning for us in our ceremonies - selfless dedication to our God. our nation. our race and our movement.

Notes on Legality

The Knights is an entirely lawful organization. It has absolutely no connection with any self-styled Klan that may be involved in violent or illegal activity.

Your Klan oath obliges you to never reveal the names of any Klan associate, but you do have the perfect right to reveal your own. Most Klan people today are open supporters and associates, but some wish to keep their affiliation private.

It is an absolute imperative that you as a Klansman observe all laws and maintain strict legality. We cannot fight for our race and nation while rotting away in jail! Our main task now is to prepare for the political, social, and physical struggle ahead and that means legal preparations. We must direct our energies toward building the mass movement we need to effect change.

There are many who would like to see our movement destroyed. For this reason we have got to be on guard for agent provocateurs.

An "agent provocateur" will sometimes sign up in patriotic organizations and then after they have won the trust of others will suggest they become involved in illegal activities. Yet, when caught they suddenly are very remorseful and are more than happy to cooperate with government authorities in helping to put the others in prison - the provocateur get a lighter sentence or simply does a little time and then moves on to his next "set up".

*If any fellow associate (or anyone) starts discussing or suggesting illegal acts tell them to stop immediately. If they refuse to stop, tell them that they sound like an agent provocateur and then leave the room. **(This should ALWAYS be the action taken in Internet Chat Rooms as well)** If you do not, you could be considered part of a criminal conspiracy. Those who have such loose talk are not your friend and not the friend of The Knights..*

Do not even joke about illegal acts. Also remember that even certain phrases spoken on the phone (or on the internet) such as "we'll blast em" perhaps meaning we'll get a lot of Klan literature distributed - could very well be taken out of context. Remember that the transcripts of your words on paper before a jury will not appear or sound like a joke.

Classification of Associates

Everyone who applies to become a Knight will be classified in one of two categories 1) unit members and b) Klansmen at large.

Unit members are those individuals who are active in a local unit. If there has been a unit established in your area and recognized by headquarters, then while working toward Knighthood you are permitted to apply for membership with that unit. NOTE: The majority of units consist of persons who have been personally recruited by a Knights 'recruiter and/or associates of their unit. In other words; we are not always able to put a Klansman at large in touch with a unit. Units can request confidential status from HQ if they wish, for security reasons, to only work with those they recruited personally. Units are kept small and there may be several units in area area who do not know of one another.

Klansmen (Klanswomen) at large are individuals who do not belong to a local Knights' unit for whatever reason. They must meet the same requirements for admission that are required of all naturalized Knights. Knights at large are encouraged to become recruiters, organize a unit, participate in nationwide projects, etc.

HQ can help you coordinate media campaigns in your area. Individual activism and the power of word of mouth are very effective as well. This nationwide network of Knights at large is essential to The Knights.

Procession to Knighthood

Delegates are usually chosen by the national office, but requests can be made by a Knight as well. Delegates must be able to be contacted via e-mail and phone by other associates and should have a continued presence on The Knights Party forum. Delegates can arrange informal meet & greets with other associates. They should encourage fellowship and participation in anonymous media campaigns, stay abreast of current affairs in their city or town, and always be in pursuit of a life of character and integrity.

Home Life

Many people complain about the world around them - for good reason. But when you walk through the door of your home – you have control (for the most part) over what happens there.

Your home should be a refuge from the world. It should be Christ centered and should embody the best of the Christian faith. God will not use you as a tool for white Christian revival until the kingdom in your home is in order. Many well meaning parents have never taught even the basics to their children - some wait until the children are older - some say their children should learn it on their own - NONSENSE! No child is too young to learn racial integrity (not racial hatred). No child should be left to learn his/her views of the world. world from television, friends, or public school.

Sadly even some middle school children of well meaning Klan parents are against the beliefs of the Klan. This is not the fault of the TV or the school system (although they are contributing factors) YOU control what they watch at home - YOU have the opportunity to discuss wrong teaching from their school with them at home. Even small children should be bold enough to stand up for what is right in social situations away from home. Parents have not been doing their job - they have not kept a clean wholesome Christian environment in their homes. While the Bible states that Christian leaders should have their home life in order before they take on any positions of authority - this does not mean that all others are off the hook. The lack of a successful home life only weakens the movement as a whole. If you can't exalt your home as a center of Christian teaching, learning, benevolence, hard work, and government - then how will you ever be an example to those outside your home.

The Bible says that Christ will put the needy into the homes of the Saints (Christians) to bring the needy to Christ. This doesn't always mean just the financially needy, but the spiritual needy as well. You may be a part of a white rights organization called The Knights - but first and foremost you are a part of a Christian organization called "the home" and it is your responsibility to insure that it is a Christian organization in every aspect.

Dedication

The great calling of our movement is to secure the preservation, protection and advancement of the White race; to enrich our people spiritually, morally, and physically. Although it is quite easy to take that beautiful idea, the task accomplishing that goal will not be an easy or simple one. The first step toward achieving it is organizing the men and women who believe as we do and are prepared to live in an honorable and Christian manner before their fellow man. Next we must practice within our racial community the highest ideals of our culture and be truly unified and committed to each other's welfare and security. We must begin to restore order in the places where we live and work. We must educate our fellow white people as to what is happening to our nation and why. We must prepare ourselves for the coming disorder that will test the very survival of the white race and white Christian ideals.

We must set an example of Christian conduct before our fellow man. We must set an example for our children. We must realize that we can indeed be a better Klansman, better parent and better husband or better wife. We can be more dedicated and realize a greater sense of honor and project a positive influence to those around us.

We must make our movement grow. The responsibility for that rests upon each of our shoulders. We must approach our friends and our daily associates as missionaries for The Knights. We must not let any opportunity to spread the good news of White unity to escape us.

Brothers and sisters, we must not look at our decision to sign up with The Knights as the fulfillment of our duty to our race and nation. Rather our decision to become a Knight should be looked at as only the beginning, the beginning of a whole new attitude toward life. We are now committed to the service of our race, our culture, our Christian faith and our children. We are the new elite, the men and the women of race and honor.

Let us dedicate ourselves to the coming struggle and let each of us know the satisfaction of true service to a high ideal.

*Let us truly live by the Klan motto **Not for self, but for others***
