

Pastor Robb's Victory! REPORT!

The Crusader - P. O. Box 2222 / Harrison, AR 72601 / 870-427-3414 / April 2011

Greetings to all our faithful friends, members and supporters gathered throughout America and the Western World. Greetings to all of you who daily remain faithful, who teach your children, who live lives of nobility and purpose.

The year 2011 is well upon us and the struggle for race, faith and homeland continues. This is not a time for retreat but a time to move forward. I know that sometime it seems like all is lost. But I want you to know that all is not lost. And even though the enemy grows in number and in strength so do we. I want you to be encouraged by not only our efforts but by all those throughout the length and breadth of America who daily Die Fahne Hoch (Raise the Banner) for our national awakening.

IS IT A JOKE!

According to the Shariah4America web site this is not a joke. They want the Statue of Liberty to wear a Burka until they get around to tearing it down. This Islamic group proudly states. "*Communism is Dead! Capitalism is Dying! Islam is the Solution.*"

Statue of Liberty in a Burka

Apparently many promoters of Shariah Law secretly are dreaming of the day when they will have enough political clout to implement change in our society. One of the first things that will have to go is the dreaded Statue of Liberty. This statue is looked upon by Muslims as a false god and they *also* find this glorification of a woman to be distasteful to Muslims generally and an abomination to Allah specifically.

Please understand the context of what I am saying. Preachers who have been telling us how wonderful a multiracial nation is going to be have not lifted a single finger to stop this non-white invasion. Not only have they made no effort to stop it they are often in the

forefront promoting it, telling their followers that it is God's will to open our doors to these *New Americans*..

Our forefathers came to America with nothing but a dream - expecting nothing but an opportunity.

We have been told how wonderful and beautiful America is going to be as more and more people from places no one has ever heard of pour into this - *our homeland!* Churches have told us that we are to open our arms and hearts to these people as they flood into our nation. Well *now* they are *here* and America *did not* become more beautiful, but America

has increasingly become a dangerous place to live. In spite of what we were told, these *New Americans did not become Americans*, but remained *who they were* and America became divided. And America has become ugly. Diversity

"New Americans" protesting in Arizona. The sign says, "Give us FREE health care, jobs, No taxes. You owe us America!"

did not make us stronger. It has made us weaker. It is unity that makes an object strong - not diversity. Strength is not in diversity but is in unity.

Fools think that the ideals of America will magically jump into the heads of these non-white immigrants the moment they cross America's invisible border. The ideals of America is not something you adopt by read-

ing books of American history, studying the Constitution or being able to pass a test to prove you are now ready to become a citizen.

The ideals of America is not something you adopt but is something you *inherit* from your forefathers. Our white brothers and sisters living in Poland, Germany, Ireland, France, Norway, Russia and many other lands have the ideals of America in every blood cell flowing through their body even though they may never have set foot upon this North American Continent. The culture which made America was a European culture. It did not come from Africa, Asia, South America etc. It came out of the heart and soul of our people and only our people can embrace it and nourish it.

This is not a “put down” of other races. It is simply acknowledging the difference. I am sure you have seen the phrase worn by some blacks stating, “It is a black thing - You wouldn’t understand.” And I agree, as a white person I cannot understand black culture and I never will. Likewise non-whites will never understand our culture.

This is why you see very few blacks and other non-whites at Tea Party rallies, CPAC conventions or who will support conservative principles in general.

This is why the levels of liberty achieved in America, Canada, Australia, New Zealand and in our European homelands will never be realized in non-white nations.

The New Pro-Choice

Giving an answer to the old joke, “*How many Negroes does it take to change a light bulb?*” may not matter any longer because a more significant change of the light bulb is about to take place this coming January 1, 2012. Why? because congress in 2007 passed the *Energy Independence and Security Act of 2007*.

This is a fancy name for a law which will deny every man, woman and child in America their light reproduction rights.

Soon you will no longer be able to enjoy the pleasure of bathing your body in the wonderful light of the incandescent light bulb - unless, of course you buy them from a “dealer” working the back alleys.

Keep your hands off my light bulb!

The government will permanently outlaw the incandescent light bulb in favor of the new little twisty, mercury filled, toxic, polluting, gaseous bulbs. When that happens your right to reproduce light according to the dictates of your own conscience will be gone forever.

However, Congresswoman Michele Bachmann (R-WI) has introduced House Resolution 5616 which will give you a choice on how you want to receive your light.

Have you ever considered that someday you might actually become PRO-CHOICE. Well that day is here. If HR 5616 becomes law it will allow you, beginning next year, to have complete control over your light bulb choices. The bill has been embraced as The Light Bulb Freedom of Choice Act:

Though radical according to some, Bachmann has declared, “*The government has no business telling an individual what kind of light bulb to buy.*”

Four other Republican Congressman have joined Ms. Bachmann as co-sponsors of the bill, including Ron Paul and Ted Poe of Texas, Paul Broun of Georgia and Doug Lamborn of Colorado

Here Are Some Dates You Need! Mark Your Calendar!

There is a slight possibility that you will receive this before the Faith & Freedom Conference. This will be held on April 1, 2 & 3. If you do, give me a call at 870-427-3414 and I will get you directions. It’s not too late for you to grab the whole family and head this way.

On September 2, 3 & 4 is The Knights Party National Congress. Start making your plans NOW.

Also the tentative date for the annual European-American Heritage Festival is October 24. We will have a concrete date soon. This a fabulous event on the streets of Pulaski, Tennessee and has a long list of sponsors. Start your plans now!

Begin With Your Family

I often receive calls from people who are angered with the betrayal of our nation and who want to join *The Knights*. The conversation is generally about the flood of illegal aliens coming into their community, undercutting the pay scale and making a simple trip to Wal-Mart or the mall sometimes uncomfortable. I am usually told that they have a lot of friends who feel the same way.

The person on the other end of the phone then tells me he wants to join and then I am almost immediately asked what they can do to help spread the word, wake people up and get more members. Often their awakening came about

because of some incident that happened to them - such as the loss of a job or a fight their child got into at school.

I certainly admire their desire and zeal to “wake” people up. I and many others have spent the better part of our lives attempting to “wake” people up and move them to action. However, it seems that most people do not want to be “awakened.” It reminds me of the scripture in the Bible found in Isaiah 30:9-11.

“For these people are stubborn rebels who refuse to pay any attention to the LORD's instructions. They tell the prophets, "Shut up! We don't want any more of your reports." They say, "Don't tell us the truth. Tell us nice things. Tell us lies. Forget all this gloom. We have heard more than enough about your 'Holy One of Israel.' We are tired of listening to what he has to say.”

While I certainly want to wake people up, the problem isn't how to wake them up as much as how to make them care. You see, I can't “wake” them up and you can't “wake” them up until they first care. And usually they don't care until they too have an incident in their life that also alarms them.

There are some people who don't need an incident in their life. These are people who are motivated out of sincere altruist motives. They care because of a deep concern and love for their people. They don't need an “incident.” Even most who join because of an “incident” quickly get past the incident and become engaged in White Christian Revival because the “incident” simply brought their love of race, faith and homeland to the surface. Those who do not have this abiding love, “pass through” the Klan like a revolving door. The “incident” brought them in and as soon as the anger gone they are out.

I always counsel people who I speak to on the phone and I offer the same counsel to you, that your first priority is not to wake people up. That “awakening” will come as the nation begins to feel the pain of its foolish behavior. The first priority you have is to your family. You need to

be more concerned about becoming the kind of dad or mom that will have a positive influence over your children. You need to be the kind of person that they can look to with deep respect. You need to begin the process of getting

your children out of the public school system and home school them, teaching and training them. You need to understand that this movement of White Christian Revival is not about hatred of other races, but a deep and abiding love of our race, our faith and our homeland.

You need to develop your character so that you carry a positive attitude and conduct in your daily lives. You need to be honest in your business dealings, to be respectful of others. You need to have a life and speech that truly reflects the meaning of Aryan. There are those who boast that they are Aryans, yet they fail to understand that the word Aryan means a Noble Man. That is what you are being called to become - a Noble Man.

Sure you want to awaken the nation, we all do, but we need to begin with our own lives and our own families. We want a righteous nation but we fail to first have righteous lives.

Teach your children by your words. Inspire them by your conduct. Let them see in you the kind of person that they can respect and follow. If you have a foul mouth and foul habits then change them. Be a man or woman of character and courage. If you don't know how to change or even where change is needed then pray for a character change in your life. Read the books of Proverbs in the Bible and read some good book, often called self-help books. I will make a few suggestions at the end of this article.

There are only two things (outside of the power of Christ) that will change your life: it is the books you read and the friends you choose. Think about the kind of people that surround the lives of your children. Are they friends that will help inspire character and courage and nobility in the lives of your children? Are your friends the kind of people you want your children to become?

Don't be fooled into thinking that you can awaken the nation while losing your own family. Train and teach your family by the words you speak, by the books you read, by the music you listen to, by the habits you develop, by the character you display, by the friends you choose, by the way you dress and by your love of God, family, race and nation.

Here are a few books I would suggest. Some of you may say, “*I don't like to read!*” Big deal, tough it up, commit yourself.

Becoming a Person of Influence - by John Maxwell
Failing Forward - by John Maxwell
The Magic of Thinking Big - by John Schwartz
The Disciplined Life - by Richard Taylor
Raising a Modern Day Knight - by Robert Lewis
You Can if You Think You Can - by Norman Vincent Peale
A lifetime of Observations - by John Wooden
Commitment to Love - by Clebe McClary

These are a few of the books out of my library which I would suggest. Of course in each of these books there may be things which I disagree, but the overall content and message is excellent. I have already suggested the book of Proverbs in the Bible and I would also suggest biographies of such people as Douglas MacArthur, Robert E. Lee,

Martin Luther, Clara Barton, Abigail Adams, Clara Booth Luce, Stonewall Jackson, George Washington, Henry Ford and Thomas Edison.

As a mom or dad, you are your child's first hero and mentor. Let them look upon you and see a man or woman of nobility. Take the time and make the commitment to teach them well.

Have You Considered Home School?

An Easy Guide to Home Schooling Success for the Liberty Conscious Family. You'll learn why children schooled in a home environment are now outperforming their establishment sponsored peers and at the same time, reinforcing and preserving basic family cohesion. The original title was, *An Easy Guide to Home Schooling Success for the Racially Conscious Family*, however the publisher thought it best to "tone down" the title.

This "how-to" educational work book was written by our own Rachel Pendergraft for white nationalist families and will help guide you on your path toward providing your children the kind of education that will set them apart and above of not only the public assembly line educated student but other home school students as well.

Even if you don't have young children this book will help give you the knowledge needed to give advice and guidance to those who do. Only \$25 including postage.

Crusaders for Distribution

In a few weeks we will begin advertising the printing of the next issue of the Crusader. These are available for distribution at \$50 for 200. We urge members and especially recruiters to avail themselves of extra copies for distribution.

If you are unable to distribute the Crusader, we can hook you up with a distributor who may not be able to afford to purchase them, but will still be able to get them out to the public. Distributing these is an easy effort. Family members usually roll up the papers and the kids get to do their part helping to spread the word of White Christian Revival. This is a good teachable activity for children.

Don't Get Discouraged!

Some times people get discouraged when they can't get their friends or even family members to join. As a result they think they are a failure and we are going to think badly of them. Believe me we understand the cloud of deception that is upon our people. Just because you see things clearly does not mean others will. The hardest thing people face is to remain faithful during these hours of discouragement.

Don't make a nuisance of yourself, especially with a spouse who may not fully agree with you. Just show him or her that being a member of *The Knights* is helping you to become a better husband, wife, father or mother. If they are content to leave you alone and not cause trouble because of your involvement, then leave it be and let them watch your testimony instead of attempting to force it on them.

Until next time, I remain,

Faithfully Yours!
Thomas Robb
