

Pastor Robb's Victory! REPORT!

The Crusader - P. O. Box 2222 / Harrison, AR 72601 / 870-427-3414 / February 2012

Dear Friends:

Below I have a photo of America taken from space. This land, given to our forefathers and mothers to take as a possession was described by Nathaniel Morton in

1669 as God's "holy habitation."

Later, in 1838, the visionary, John O'Sullivan stated that on this land the people would build, "The noblest temple ever dedicated to the worship of the Most High."

Then seven years later, in 1845, O'Sullivan wrote a column in the New York Morning News and stated it is, "the right of our manifest destiny to overspread and to possess the whole of the continent which Providence has given us."

I want you to fully understand the depth of this struggle which has engaged us. As we move through the course of this year we will see greater and greater intensity over the election of our next president. There is much hope and fanfare that the African occupant of 1600 Pennsylvania Avenue will be looking for a new job come November.

Of course, I do not have a crystal ball and cannot pretend to prophecy the future, but **this I do know**. . . there is unrest and anger in the nation. This unrest grows with each passing day. And riding the crest of this unrest are candidates for president, senate, congress and many state offices. It may change before you read the next word, but as of now the Republican candidates for president are: Mitt Romney, Newt Gingrich, Ron Paul and Rick Santorum.

People are concerned about who will get the nomination and then win the election. The man I believe is best able to put our nation back on track is Ron Paul even though there are statements he has made ("Martin Luther King and Rosa Parks are my heroes.") which are disturbing.

But in spite of these disturbing statements I guess I am willing to have him say what he perceived to be necessary to win this election or at least awaken people to the need of returning to constitutional government.

Will it do any good? I don't know. But I do believe that constitutional government is sufficient. White people do not need special privileges or protections. We don't need job quotas, affirmative action or handouts. The constitution simply protected a level playing field. And with a level playing field and the government off our back - we win!

If the federal government can once again be shackled by the 10th amendment we would be able to throw off its abuse. A people at liberty will be free to excel and excelling is what our people do best.

This photo of America taken from outer space is how God sees this land when He looks down from the heavens. For nearly 6,000 years God kept this "wilderness" insulated and secure from the rest of the inhabited world. And then at His appointed

hour, this land, destined as the final habitation for the sons and daughters of Europe was

revealed to His children. It was not just a mental vision dancing in the heads of men like Morton and O'Sullivan, but it was lived out each day as our people spread across the woodlands and prairies of America.

And now we are engaged in a great struggle to determine whether or not we are still worthy of this wonderful gift from the Almighty. Certainly, our forefathers proved their worth. With every sod of grass turned, with the digging of every well and with every tree fell by the swinging of the axe our forefathers and mothers made themselves worthy. With every sod house on the Kansas prairie, every foot step across the wilderness and every river forged our forefathers and mothers carved a nation out of the wilderness. The speed which we claimed dominion over the continent stand as a witness to all generations that indeed the words of O'Sullivan were precisely "on point." In America there would be built, "*The noblest temple ever dedicated to the worship of the Most High.*" Indeed it was "*the right of our manifest destiny to overspread and to possess the whole of the continent which Providence has given us.*"

And this is what I want you to understand, this land, that you see in that picture taken from high up in the heavens is God's "*Holy habitation*" given to us by Providence!

Our forefathers and mothers stood on the western bank of the Mississippi lifted their eyes to the western sun and declared in their hearts - this will be ours. And in less than 75 years the whole of the west, from the western banks of the Mississippi to the shores of the Pacific were totally and completely subdued. The sons and daughters of Europe stood in dominion over the continent.

Our fathers and mothers sacrificed a great deal to secure this land for us. Are we willing to engage in the struggle to keep it secure for our children?

That is the question that you and those of this generation must answer.

What Is Your Answer?

Here is the deal. If I could stand before you *today*, and I was asking this question, not on paper with words, but if I was standing and looking you straight in the eye, there is little doubt in my mind that everyone of you would say "Yes!" Your answer would not only be "yes" but it would be an emphatic "YES!"

But what about tomorrow and the next day and the following weeks and months?

What if no one listened to your words of warning? What if you have made many contributions toward proclaiming the message of White Christian Revival and yet no one listened? What if you were alone and didn't know anyone else? What if the country seemed to continue its plunge into oblivion? What if you had gotten old and still the nation walks like a blind man?

What if you grew tired and were worn out? What if your friends thought you were "nuts?" What if you had labored hard and long and still the nation remains in darkness? What if you spent hundreds or perhaps thousands of dollars and still it seemed no one cared? You are alone - in the dark - at the end of your life and it seems all your efforts and the money spent was gone - wasted - because nothing changed - the nation and our beloved people are still dancing to the edge of the abyss.

You see, the question really isn't, "*Are you willing to engage in the struggle to secure a future for our children?*"

The real question is, "*Will you remain faithful?*" You see, over the years I have heard thousands of voices telling me they will fight for our people. But then the voice would grow weak and then fade into silence.

By manifest destiny this land was given to the sons and daughters of Europe who paid a sacrifice of blood and endurance. Now, through the law of inheritance it has become ours. But how long will it remain in our hands?

Is the republic dead? And what about this land - this "heaven rescued land" as Francis Scott Key stated in what became our national anthem. What about this land?

We are in the midst of another presidential election cycle. It seems each of the Republican candidates are sincere about their desire to pull America back from the brink. Others are doubtful of their sincerity and feel no matter who gets elected it really won't change the game.

Can the election of either of the four Republican candidates change anything? It is possible that Paul, with binding faithfulness to the constitution could bring about a change where we could reclaim our lost inheritance? But the other three, as sincere as they may be, can not bring about effective change unless the dynamics of power is protected. However, it is clear that as long as we are being invaded in a nonwhite crusade and millions of nonwhites enter the election process, the dynamic will not improve but instead deteriorate,

If this causes you to shrink away from the contest before us then you are not the man or woman of vision that America needs in this hour of despair.

Don't give up!

A recent article in *Time Magazine* (March 22, 2010) is titled, *The White Anxiety Crisis*. The context of this article and other sources verify, that though we will reach a non-white national majority in the year 2042,

the overwhelming majority of these non whites will be in the Pacific and Atlantic coastal states. As this occurs whites will flee from the coastal states into middle America - often called "flyover" country. It should be noted that major metropolitan areas in *any* part of the country should be avoided as you may find yourself on the menu for inner city hungry citizens.

This article then states that it is here where a white awakening will occur. Of course the article did not use the words "white awakening" they said whites will "increasingly develop a stronger consciousness of their political interests" and "A strong white minority political consciousness is most likely to arise."

In the book, *Civil War Two*, the author, Thomas Chittum, gives considerable attention to the ethnic balkanization occurring in the south and the southwest. He suggests that by the year 2025 (that's only 13 years away) the southwestern states of Texas, New Mexico, Arizona and California will have such a high population of Mexicans that it will be "American" in name only. By the year 2025 these states will in fact be "Mexico" within the U. S. Border and will be openly defiant to U. S. laws. He suggests most of the southern states will also balkanize at that time due to the extremely high population of Negroes. The U.S. Government, already financially dead, will be unable to contain this open defiance to U. S. law and will be forced to abandon any notion of doing so.

America, as we know it, will cease to exist.

I don't know, I am simply telling you what many are beginning to say.

Both *Time Magazine* and *Civil War Two* as well other

The correct understanding of this balkanization should not cause despair but should bring a measure of hope. What we will see is a natural awakening and a rebirth of our racial spirit. We are part of this rebirth.

The two maps shown above will give some idea of what is happening in the U.S. In map #1 the pink and purple areas show where the highest concentration of Negroes live and in map #2 the green and yellow area is where the highest concentration of "Hispanics" live. I realize that the demographic boxes in the bottom right corners are unreadable. But the indications are relevant. The light green areas in map #2 indicate a "Hispanic" population between 5 and 16 percent. The maps are products of the U. S. Census Bureau. These maps showing the distribution of Negroes and "Hispanics" is not for the purpose of frightening you, but to help illustrate the future impact we can have in America's heartland aided by what *Time Magazine* says will be a growing white identity consciousness.

researchers tell us that as a result of the above, there will be a flood of whites with a racial *consciousness* moving away from the coastal states, the southwest and the south into northern states, the west and the mid-west.

Again, even then, they would be wise to avoid metropolitan areas. As that happens, changes will be taking place and a new white homeland will emerge.

While the vast majority of our people around and about us seems oblivious to what is happening there is a growing number who are sickened with what they see.

Your continued efforts will help to further awaken our people. We are proclaiming a message of hope and deliverance to a broken nation and a broken people. We must remain a light on a hill.
