

Pastor Robb's Victory! REPORT

American Heritage Committee - P. O. Box 2222 / Harrison, AR 72601 / 870-427-3414 / May 2013

Dear Friends:

We are once again sending out to Knights Party members the new issue of The Torch. The Torch is a publication of the Christian Revival Center. Also keep in mind that you can listen to the live Sunday broadcast coming from the Christian Revival Center each Sunday morning at 12 noon ET. Simply go to www.ChristianRevivalCenter.net and follow the links.

NEW STORE

Our new store website is American Heritage Committee. The website is www.americanheritagecommittee.com. It is no longer Christian Concepts or Christian Books and things. It is intended to reflect devotion to our American Heritage.

To coincide with the new store is a new domain name you can now go to www.SaveOurAmericanHeritage.com and it will take you directly to kkk.bz

This will allow you to give out the new website address to those you may be in conversation with or to hand out cards to those you meet without the concern of the KKK address. This let's the common man or woman go to the website address you give (after all they probably agree with everything we have to say) and then they can see that they in fact have agreed with the precepts of The Knights Party.

We are very excited about this next step we have taken to educate and articulate our message of white Christian Revival to our lost brothers and sisters!

CONGRESS

August 30, 31 and September 1

I hope you are making plans to attend congress this fall. This congress is going to be the most important congress we have ever held. There are major changes taking place in the country. While on the surface these changes are disturbing, what is happening under the surface is wonderful news.

I presented this in a two hour message at the Faith & Freedom Conference and we will be dealing with it in further depth at the fall session of the *Soldiers of the Cross Training Institute* and at congress. Over the next 30 years you are going to see a new national foundation built. There are going to be dramatic changes. I do not know how all these changes

will take place but I do know that out of this we will see a new nation emerge. For that reason I have picked for our theme: *Laying a New Foundation!*

I do hope you will do what ever it takes to be here on August 30, 31 and September 1. And be sure to bring your whole family. We have classes for the younger kids and they will enjoy the nature hike and fun in the playground. Congress will start on Friday evening at 7pm, then resume on Saturday morning with breakfast from our camp kitchen. Saturday evening we will have a fabulous firework display. Sunday morning we will begin with breakfast, congress activities in the afternoon, rewards recognition in the evening followed by our annual cross lighting ceremony. It will be a weekend you will not forget.

WELCOME

We want to welcome all new associates which have joined over the last few months and we hope to meet some of you at congress in the fall.

I know that all those who joined The Knights are extremely angered by the betrayal this government has demonstrated against, not only our "dearest liberties," but against our people as well.

Often people joining The Knights are under the illusion that there are thousands of Klansmen in every nook and corner of America. I wish that was the case.

It is not!

Our people have been the target of anti-White propaganda for years. Television, schools and churches have twisted the history of our people and have subtly portrayed White people as a cancer on society.

We know that this isn't true, but yet multitudes of our children have been victimized. Thousands of our people have been morally, spiritually and racially raped by the destroyers who walk among us.

For that reason you and I are like the great prophets of old. Often we must stand before a wicked generation and point the way to the old paths which brought the blessings of God upon our people.

When you joined, I wish I could have put you in contact with other members in your neighborhood or in your city. But I can not!

And there are two reasons why I cannot do this. One reason is, there may not be any other “awakened” persons in your neighborhood. However, people are stirring. People are becoming uncomfortable. People are losing hope in a government which has betrayed them. And people are beginning to understand, if they want the liberties our forefathers gave us then they too must answer the call echoing from the past when Patrick Henry called out from St. John’s church in 1775 and proclaimed to his countrymen, “*Why stand we here idle. Our brethren are already in the field.*”

Unfortunately, the vast majority of our countrymen are still idle. I have spent the last 50 years of my life attempting to awaken the sleeping spirit of our people. I have patiently waited for your spirit to be awakened and now that it has we can work together to help awaken others.

But remember everything which you now see so clearly is not easily seen by others. We must continue walking through the night with the light of White Christian Revival. So don’t become discouraged. If I can struggle for 50 years without quitting certainly you can walk with me now.

Besides, if you only joined because you wanted some friends to hang out with then you actually joined for the wrong reason. But if you joined with the true ideals of altruism than we can work together to awaken our people.

The second reason I cannot put you in contact with other members is that the times and seasons have changed. In the old days the overwhelming majority of our people still held fast to the ideals of racial integrity. But that has changed. We don’t always know people who join The Knights, we don’t always know their intentions. For that reason we are not going to give up your name to others who we may not know too well either. We are very concerned about protecting the privacy of our members.

This is why it is important for you to come to congress or other national events. It gives you an opportunity to learn (a lot) and meet people. It is the beginning of the networking process you must do. Also on our members only website it gives an opportunity to network. People who “hang in there,” will begin to understand why this is done and also will begin developing friends.

I wish things were different, but this is the day and the age in which we live.

So don’t get discouraged, the nation is walking in darkness and we have been commissioned to bring them a message of hope and deliverance - of White Christian Revival. We will be resolute and we will be unbreakable.

NOTE!

I know visiting other white patriotic website forums can be both fun and entertaining. However, it is our membership forum where *you need to be to stay connected*. This is where you will inspire and be inspired. Those of you who have been members for a long time need to consider the powerful influence you can have with newer members. So you “older” members, don’t neglect your responsibility to The Knights

and stay on our forum. Remember the three C’s for success: *connect, communicate, commit!*

Connecting on our members only webforum will establish communication with other members and from that connection and communication the commitment to White Christian Revival will be built!

EDUCATION ON-LINE

As we have mentioned before, we feel it is very important to be proactive in educating our people. This is the whole emphasis behind the SOTC Training Institute which, as has been previously said, is going to be a real game changer. While every other Christian Nationalist organization I can think of strives to build membership, the primary objective of The Knights has been focused on leadership.

We have always felt that our people really need a solid understanding of this struggle (the school will focus on winning the battle) but sadly there are many of our white brothers and sisters who join but can’t see the overall picture. This is why The Knights has always concentrated on education and thus the three step process of membership; Page, Squire, and Knight. And we have worked hard to make these tools accessible on the member's website which was redesigned last year. Go on to the website using your username/password and you can fulfill all your educational requirements online.

In addition, we are working quickly to get more of our instructional videos on line at the site. When we host conferences here in Arkansas it is important to attend to show your family that you place fellowship with like minded white people as a priority. Still, we realize there are occasions when it isn't possible. What you miss isn't just the comradeship, but also the instruction. We work very hard when speaking to conference attendees to provide not just a few nice speeches, but also sound instruction. With our new primer up on line, we can continue the tedious, but much needed process of making these videos available to you.

AND PARENTS:

If you have teenagers they need to be signed up with The Knights Party Crusaders. We are the only white nationalist organization that has a private and safe website just for white teens. And it isn't just a website, but it includes a library of material suitable for young men and women that includes character building, moral concepts and subjects categorized for both guys and gals, white history lessons, exams, activities, a message board, and monitoring by Christian men and women of the highest caliber. If you have teens and they aren't a part of the Crusaders . . . why not? While everyone talks about how the youth is our future, we are attempting to insure that is it not just a slogan but a reality.

The entire staff of The Knights Party thanks you for partnering with us to bring a message of hope and deliverance to America.

Your prayers and financial support is always needed and appreciated.
