N Words Gone Wild

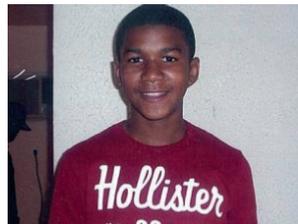

Can you remember way back when the half Jewish and half Hispanic George Zimmerman shot Trayvon Martin while Martin was pounding George's head into the pavement? Actually, *Reuters News Agency*, reveals that Zimmerman is partially black through a Peruvian great-grandfather—the father of the maternal grandmother who helped raise him. Never-the-less in the eyes of the media he was a big O' white boy venting his racism.

Immediately Al Sharpton, Jesse Jackson, and other race agitators began wailing about how poor black kids are being hunted down in the streets. And the media wagging its tail like a faithful puppy dog portrayed this as an example of an evil white racist society that shoots down poor innocent black kids while they are walking to prayer meetings.

As it turns out, even if Zimmerman was guilty of over reacting, it still is not a white on black "crime" rather a minority on minority crime. But the whole Negro "blame whitey" establishment needs to be a victim and manipulate white guilt in order to enhance their agenda.

And to help cement that guilt complex into the minds of white people, images were shown of a big "beefed up" Zimmerman and an old photo of Martin looking like an angelic choir boy.

"Shakedown" Jesse Jackson claimed that blacks are "under attack" and that "targeting, arresting, convicting blacks and ultimately killing us is big business."

What you saw in the media!
Ahh! What a cute little Negro!

This is what George Zimmerman saw.
Wait a minute - no it isn't! It's hard to see anything when your head is being beaten into the concrete!

However, who is really under attack in America? Do I really have to point out that whole sections of every major city in America are virtual "no go" zones? Even arch defenders of integration know where the bad neighborhoods are. They are simply too cowardly to identify the color of those bad neighborhoods. But it really isn't the "neighborhood" which is bad but the majority of the occupants of the neighborhood.

The narrative for hate crimes is firmly written in the script of every news story. Simply put, "hate crimes" are when a white person commits a crime against a minority. If the crime is committed against a white person it will get little media coverage and certainly no national exposure.

Here are a few non-news stories that have been ignored by the national media which have been busy little beavers trumpeting the "tragedy" of Trayvon Martin.

On March 14 in Tulsa, Okla., a white couple suffered a home invasion by Tyrone Woodfork, a 20-year-old black man. Ninety-year-old Bob Strait suffered a broken jaw and broken ribs in the attack. His 85-year-old wife, Nancy, was sexually assaulted and battered to death, ending their 65-year marriage.

No national media coverage!

On March 4, two black Kansas City, Mo., thugs doused a 13-year-old white child in gasoline and set him on fire, telling him, "You get what you deserve, white boy."

No national media coverage!

In referencing the killing of Trayvon Martin, Barack Obama, on March 23, stated in a press conference that if he had a son, his son would look like Trayvon. I wonder if the president would also admit that his son would also look like Tyrone Woodfork.

Last summer, Chicago Mayor Rahm Emanuel ordered an emergency shutdown of the beaches in Chicago because mobs of blacks were terrorizing white families.

No national media coverage!

On the week-end of March 24th & 25th, in Grand Rapids, Michigan, 37-year old Jacob Palasek was brutally attacked by a roaming pack of Negroes and beaten in the head with a chain. As he was being beaten one of the black thugs yelled out, "*this is what you deserve you white piece of sh-t.*"

No national media coverage!

In Mobile, Alabama, on April 21st, Matthew Owens was attacked by a tribe of nearly twenty Negroes. He was hit with baseball bats, a chair, a can of paint, brass knuckles and anything else they could get their hands on. When they finally stopped the beating he was found lying on the ground unconscious and covered in blood. As the Negro war party retreated they chanted, "*Now that's justice for Trayvon!*"

No national media coverage!

Did you think these 5 examples given above were hate crimes? No! No! No!

Here is what you must understand silly! Negroes don't commit hate crimes.

Welcome Home Beaver!

We all remember the lovable Beaver in the family sitcom *Leave it to Beaver!* That kind of innocent America seems so long ago. With the wave of non-white immigrants, Sodomites, drugs, abortion and the trashing

of all that is moral, we wonder if that kind of America is gone forever.

Under the age of 12 there are more non-Whites than Whites which makes your white children a statistical minority. American Whites (all ages) will officially become a minority in the year 2042 (in 30-years).

White Christians have mostly lost political power as politicians cater to the demands of non-Whites in order to keep control of their party's turf.

However, most of American non-whites are on the coastal states. Demographers recognize a migration of whites to the heartland and we see the balkanization of America especially observant in the southwest. Time Magazine in March of 2010 and others have noted (with concern!) that when this occurs Whites will develop a strong racial identity.

Do not underestimate your participation in this struggle for White Christian Revival. Every word you speak, every piece of literature you hand out and every KKK contact card you leave on a counter top is a step toward reclaiming our homeland.

How many years will it take for this to fully develop is an unknown factor but we will keep the home fires burning until "the Beaver" finds his way home.

Can You Handle the Truth

OK! I know that there will be some who won't appreciate the following information, but as Sgt. Joe Friday of the old Dragnet television series would say, "*The facts ma'am, just the facts.*"

Well here are the facts! *Sorry Jesse!*

Research conducted by the University of Ulster (Northern Ireland) and Ross University (Commonwealth of Dominica) have confirmed with facts exactly what has for years been understood by natural observation.

A study published in 2010 shows why Negroes in sub-Saharan nations are in continual destitution, decay, and chaos. It seem that though they are a world away they suffer from the same genetics that their kinfolk in Detroit, Memphis, Kansas City, Cleveland, Atlanta, East St. Louis and other American African city/nations suffer from.

The research confirms findings released in 2009 by Jelte M. Wicherts, Conor V. Dolan, Han L. J. van der Maas of the University of Amsterdam, The Netherlands and found the average IQ to be 80. However, the test subjects primarily came from the upper class. An average of the general population turned up a score of 68. By western standards, a score of 68 is considered "mildly mentally retarded." In the United States, the average black IQ is 85. However, many American "Blacks," like Obama also have white ancestry, as well as access to better prenatal care and a superior diet which may aid in upping American black IQ scores. The average IQ of American blacks who have a bachelor's degree is 95-100. The average IQ for American whites is 100, and the average IQ of an American white with a bachelors' degree is 115-120.

The Forgotten Holocaust

It seems like we are constantly bombarded with stories of Jewish suffering by the hands of the Germans during World War II. This manipulation of our compassion is used by Zionists to keep us entangled in the

affairs of the Middle east and is responsible for our decade long war in Afghanistan and to enhance “justification” for our impending war with Iran.

But the suffering of millions of German citizens after WWII is neglected. And of course we never hear of the millions of Ukrainians and others who were brutally murdered through mass starvation in “*the workers paradise*” by the wealth redistributing thugs of the Kremlin.

We are led to believe and accept that the only ones which have suffered persecution have been Jews, Negroes, Indians and various indigenous people at the hands of evil White Christian racists.

OH! Shame on us!

The third annual Forgotten Holocaust Conference was held over the week-end of April 20-21. The conference focused on the expulsion of millions of ethnic Germans living in Central Eastern Europe after World War II. The highlight of the conference was the showing of the new film by independent film producer Ann Morrison: “*Millions Cried... No One Listened*”

Based on extensive research and dozens of personal interviews, this documentary describes the plight, suffering and forced relocation of approximately 15 million ethnic Germans who lived in predominantly rural areas of Romania, Yugoslavia, Hungary, Czechoslovakia, Slovakia, East Prussia, and others after the Second World War. These regions of Eastern Europe had been the home of ethnic Germans for centuries whom left their mark as outstanding craftspeople, educators and musicians.

The organizers of the conference were thrilled with the attendance of a high school history teacher who attended with the permission of the school district.

He not only attended, but the school covered the cost of the conference.

He intends to include the subject of the persecution of post WWII ethnic Germans to his curriculum for the upcoming school year.

Redistribution of Grades?

Students of Carthage College in Kenosha, Wisconsin tested the reaction of college students with a proposal that a law be passed that would redistribute grades. The thought behind the experiment comes from the “unfair” benefits that certain people in our society have as a result of their hard work.

The founding fathers created a government that would insure equal opportunity - not equal results. We describe this system as a free market economy. Of late it is mistakenly labeled capitalism.

Under a free market economy those who have a better idea, a better system or a better work ethic can reap substantial financial rewards. However, under Obamanomics (Socialism/Communism) the more successful are considered an enemy of the less “fortunate,” and therefore the only “fair” thing to do is tax them and redistribute this wealth to the poor and unfortunate.

We have been the victim of word “games” for years. To say the more successful are “fortunate” and the poor are “unfortunate” gives the mistaken notion that it is only luck and chance that certain people succeed rather than understanding and appreciating the great benefits these people have provided which makes all our lives easier and more enjoyable.

So in order to help other students understand the principles of success and the destructive policies of wealth redistribution by making the “rich” pay their “fair” share, these students embarked on the test of asking students to sign a petition of redistributing grades.

Here is how the system would work. Some students get poor grades, these poor grades can result in the failure to graduate and therefore trap them in low income jobs. And that isn't fair!

In order to be “fair” it is determined that students who get good grades should have some of their grades lowered and given to a poor student who then would have their grades raised. After all, there are only so

many good grades to go around and it isn't fair that some students should get all the good grades.

I guess it shouldn't be a shock but a surprising number of students signed the petitions. But it appears that none of the top achievers went for the bogus plan. I guess they wanted to *keep* the good grades they worked so hard to get.

Greedy morons!

Patriots In France and Greece Grab World Wide Attention!

Marine Le Pen, leader of the National Front in France has scored a major political upset. As leader of The National Front she has boldly advocated reducing legal immigration by 95%, abolishing the right to family reunification, and reinstating the death penalty, abolished in 1981.

Naturally, she and The National Front is labeled as racist and Nazi. Though smaller than the two major parties, the National Front is actually the third largest political party in France and is becoming a political threat to the parties of Twiddle De De and Twiddle De Dumb.

The Election of May 6th gave the National Front an 18% vote, which will guarantee them greater recognition and enhance their struggle of reclaiming France for the French.

The same kind of positive political upset has occurred in our European sister nation of Greece where the Golden Dawn Party won a stunning 7% of the vote giving them 21 seat in parliament. I am aware that 7% does not sound like very much but in the politics of Greece it reveals a strong and growing effort toward reclaiming Greece from the globalists and international bankers.
