Dear Friends:

I don't like to spread bad news nor do I like appearing to be an alarmist. But I would be amiss if I did not give some kind of warning to the proposed agenda of Barack Obama and the progressives among us.

The Bible is clear that the servants (watchman) of the Lord are to warn the people. This is what I have attempted to do since the mid 1960's. Certainly few have listened, but the growing threat is still real.

The late Speaker of the House, Tip O'Neill is credited for saying, "*All politics is local.*" While there may be a measure of truth in this when dealing with elections, when it comes political policy, the hard core reality is "**All politics is racial!**"

Race is overwhelmingly the major factor in most, if

Poor Bill and Sean just can't figure out why "minorities" support the Obama agenda. It really isn't their fault, they are the victims of the Marx's doctrine of egalitarianism.

figure out why Obama still has such a high percentage of support, when his programs are such an anathema to traditional American ideals. It isn't as simple as saying all minorities are for the Democrat agenda and all whites are for Republicans. However, more and more, the astute political observer is able to see that the Democratic Party is the non-white party and the Republican Party is the white party, even though it is also betraying the interests of white people.

As our nation waffles among issues of abortion, gun control, illegal aliens, entitlements, etc. none of the official spokesman for the conservative movement dare to even consider that the traditional values of this country are eroding in direct proportion to the growing number of aliens (both legal and illegal) which have invaded our country.

The average "American" in 2012 is far different than the average American in 1912. In 1912 America was primarily a white country. Even as late as 1970, Ameri-

not all, political policy.

The very ideals of self-government was birthed in the hearts of our people. We are now a nation fighting for its very survival and we are told that there is a growing awareness of the American people who are angry with Obama's progressive agenda.

But here's the deal - this growing awareness - is almost totally contained among white people.

White Christians are about to be voted out of power by the sheer numbers of "minorities" which now live among us. And these "minorities," in overwhelming numbers, not only support Obama, they support the progressive agenda embraced by Obama.

ca was 92% white. However, today, the white population of America is closer to 60%. And those whites who comprise this 60% have been purposely “dumbed down” both academically and morally. This “dumbing down” became almost a necessity to progressives who cannot figure out why whites continually excel in all the disciplines of education.

Because it is officially a “sin” to consider race in any factor, conservative leaders and spokesmen are often and usually puzzled as to why, in spite of the destructive policies of Obama, he and his Republican challenger for president are still in a close race. And when there are more of them than there are of us, America - along with grandma and apple pie will be gone! It is simple. White people are being voted out of power. All the ideals which made America great, such as self-government, free markets, along with individual freedom and responsibility, are ideals which comes from our spiritual soul. Non whites may speak of them, enjoy them and in the right environment even promote them, but they can never understand them, because *it did not come out of them*. Remember what Obama said at a speech in Kansas about the concept of rugged individualism. According to Obama it is a “*simple theory - one that speaks to our . . . Healthy skepticism of too much government. It fits well on a bumper sticker. Here is the problem: It*

This arrogant president doesn't have a clue about the values which built America. Of course, the main reason is because America was built by our people and not his people,

*doesn't work!*” To Obama, the ideals of liberty are just a cute phrase for a bumper sticker. Because these ideals did not come out of the race to which he is identified, they can never maintain those great principles of individual liberty. This is why whites traditionally vote conservative and non-whites promote socialist programs.

If America was comprised of the people of 1912 instead of the people of 2012, Romney the conservative challenger to Obama would be considered a liberal. And Obama would be shining shoes at the bus station.

## Is the Republic Dead?

A few months ago I was in a Staples office supply store to purchase some items for the office. When I was ready to pay I made a comment about the tax and then commented that the government isn't our friend anymore. The manager of the store who was helping me simply said, “*It's not - it's not our friend!*”

There is a growing anger throughout the nation and this anger is going to continually grow.

Whether Obama is reelected or Romney becomes president, the fact remains, as least the way I see it, the non-white explosion taking place will change America forever, especially after all the old folks, like me, in the Baby Boomer generation dies off over the next 10 to 20 years.

This is not necessarily a bad thing, because the real issue is not the survival of a national state but the survival of our race. We will see many developments that will bring opportunities for our racial redemption.

The transition will be unpleasant, but perhaps necessary. I have written on some of things in the past. I certainly wish that our people would have connected with their racial heritage before it got to this point. I and many others have done the best we could to stir the heart and the blood of our people. But they did not heed the warning and now this judgment is upon us.

Here are a few things being pursued by the Obama administration that will help awaken people and eventually allow us to once again “*institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.*”

I am aware that some of this may be distressing, but we must recall the Scripture verse which says, “*The wicked flee when no man pursueth, but the righteous are as bold as a lion.*”

It seems beyond reasonable doubt that Obama and his progressive friends are intent on destroying what's left of the sovereignty of this country. I recall the statement made by the Soviet dictator, Nikita Khrushchev on TV while he was visiting the UN, his famous hammering the shoe on the podium incident, exclaiming how the Communists would bury America without firing a shot, “*Your children's children will be living under communism.*”

Nikita Khrushchev is credit for boasting “*You Americans are so gullible. No, you won't accept communism*

*outright; but we'll keep feeding you small doses of Socialism until you will finally wake up and find that you already have communism. We won't have to fight you; we will so weaken your economy until you fall like overripe fruit into our hands."*

Some have argued that the above quote cannot be properly documented. But that is of little importance considering that "in real time" the objectives of this statement, accredited to Khrushchev, have been fulfilled.

Though "communism" may be considered dead, the objectives of Communism, regardless of the name, are the same. What used to be called the Communist Party is considered by some now called the Democrat Party.

I have listed below 5 objective which the Democratic Party is now pursuing. It is your choice whether you also want to label it communistic.

### **International Criminal Court (ICC)**

If we submit to the authority of the International Criminal Court (ICC) we would sacrifice basic principles of liberty.

- 1) The ICC would not honor 4th amendment protection against unreasonable search and seizures.
- 2) It Would not have protection against self-incrimination.
- 3) It would not protect against double-jeopardy as guaranteed by U.S. Constitution
- 4) There would be no presumption of innocence.
- 5) No guarantee of a speedy trial
- 6) Americans could still be prosecuted even if they have been found innocent in U.S. courts.
- 8) It would have greater authority than the president, congress and the Supreme Court.

### **Law of the Sea Treaty (LOST)**

1) Established in 1970 Forbes Magazine says LOST is designed to take "money from productive First World democracies and give it to collectivist Third World autocracies."

2) It would place the US under the control of an International Tribunal

3) It would establish a two hundred mile offshore economic zone. Well past the current 12 mile zone of a nation's sovereignty. Thus according to Article 82 of the treaty the US would have to forfeit royalties generated from oil and gas exploration on the continental shelf. This money is considered to belong to the international community under the Law of the Sea Treaty and would go to the International Seabed Authority who would be in charge of its distribution. The U.S. would have but one vote among approximately 160 member nations. The Law of the Sea Treaty would also require

developed nations (read white) to transfer to developing nations (read non-white) their technology and scientific knowledge.

4) Because the Law of the Sea Treaty has provisions to allow it to monitor environmental concerns it will give authority to dictate policies of land use within US borders, regardless of local jurisdiction.

### **UN Small Arms Treaty**

1) It will require congress to pass some forms of restrictions on ownership of firearms.

2) If congress refuses to pass laws that are satisfactory with the UN, then the courts will force the congress to pass such laws.

3) It will create a bureaucracy to regulate international weapon sales.

4) Countries which have weapons manufacturers will be required to pay into a fund to compensate victims of gun violence worldwide.

6) It will require every country to submit a report to the agency showing what action they have taken to comply with the laws of the treaty. This will no doubt include gun registration.

### **US Convention on the Rights of the Child**

1) Has a good appearance in that it bans child pornography, child prostitution, and child soldiers.

2) It will be regulated by an 18-member panel.

3) When a country signs the convention they must review laws relating to children.

4) Countries are obligated to ensure minimum standards, set by the convention.

5) Article 12 declares every country must respect the rights of children. "When adults are making decisions that affect children, children have the right to say what they think should happen and have their opinions taken into account . . . This Convention encourages adults to listen to the opinions of children and involve them in decision making."

6) If the Convention feels that a decision was made without proper child participation, parents could be punished for violating their children's rights.

7) US courts would have no jurisdiction over international law. Any punishment you give your child must

first have the child's approval and must meet the Conventions directives.

8) Our elected officials would have no power to modify the provisions as it would be outside of their jurisdiction and can only be altered by international law. The same as a city or state is not permitted to alter Federal law.

9) Spanking a child would be in violation of Article 19. The Convention is clear that *"any form of discipline involving violence is unacceptable."*

10) Article 24 establishes that rich countries (white) are obligated to ensure the welfare of children in poor countries (non-white).

### Agenda 21 Project

1) Is a massive attempt to take control of rural America

2) It is being promoted as "smart growth."

3) An example of the attempt to pursue *smart growth politics* the governor of Maryland wants to ban septic tanks.

4) Six states, Hawaii, Virginia, Maryland, Vermont, New Jersey and New York have enacted a Benefit Corporation law which gives companies which follow Agenda 21 guidelines to go to the head of the line when obtaining permits, licenses and other opportunities. California, Colorado, Michigan, North Carolina and Pennsylvania are considering the same.

5) There is an effort to have the Environmental Protection Agency deny grants to states and cities who do not adopt the "smart growth" policies of Agenda 21.

6) Agenda 21 will take land use and planning decisions out of the hands of the voters and cede them to zoning boards in the name of "smart growth."

The agenda of the progressives/communists are indeed disturbing, however there are other factors at play. And the one factor most encouraging is the break down of the massive world-wide economic system. They have built a fragile house of cards which is unable to handle the enormous weight at the top

It's not that I am eager for this judgment to come upon us, but history is clear that it often takes tough times to get a people and a nation to turn around and re-balance itself.

I know that people often join The Knights out of frustration with the overt betrayal and genocide of our people. They usually want to be put in contact with

other members in their hometown. This, however, is not always possible and in many cases not advisable.

You need to ignore the rumors and stories about hundreds of thousands of Klansman around the country. I wish there were, if so, this country may not be in this mess.

You need to examine why you joined, was it to have an opportunity to hang

out with other members or was it to be a voice - a force for change. So WHAT if there aren't any members in your neighborhood - does that mean the future of your children and America doesn't matter. Did you join, just to be a part of a club or did you join to make a difference?

Hope you are making making plans to be at congress it will be here VERY quickly. Call me: 870-427-3424.

Love your people!
