The Knights Party is progressive in thought and planning. We continually look toward the future in our strategy and work constantly to improve ourselves and our ability to represent our white brothers and sisters.

The Knights Party is fighting for an entire outlook of life, a philosophy of living. We are not only crusading for ourselves and our families, but are the vanguards of a Christian ideal - human quality.

The Knights Party is national in scope. We are all a part of a team of volunteers in big cities and small towns. Through organized units or the thousands of Knights at-large, we are able to take a message of hope and deliverance to our people.

The Knights Party conducts itself in a professional manner. We seek to have the most professional of materials and to be timely, efficient, productive and effective. We strive to develop and advance ourselves and to perform the best that we are able for any given task.

The Knights Party leadership is dedicated and experienced in the struggle for White Christian Revival. Speakers for The Knights, Pastor Robb and Mrs. Rachel Pendergraft, have years of experience in the racist movement spanning over 75 years combined. Likewise the men and women who serve in positions at the national office are fiercely dedicated and have been working on behalf of their white brothers and sisters for many years.

The Knights Party stands in support of Law and Order. While there may be those who usurp their position of authority to harass law abiding Christians - we must remember that the average law enforcement officer isn't a part of a giant conspiracy - but are well meaning people who love our country and want to see safe streets, homes, and schools. This is why outreach to the law enforcement community is so important to us. Time and time again we hear the frustration of good cops who have a dream for a safer America. And like you, many of them are fearful of the type of future their children are going to have when America ceases to be a white majority Christian nation. And that day is fast approaching. We work to let them know that we share their concerns, that we aren't a fringe hate organization as groups like the SPLC like to imply and that we represent a core group of honest, sincere, and dedicated men and women working for a return of Law and Order.

In one important case involving a police officer (Henderson) fired for his beliefs, but also backed by his police union, a special arbitrator from NY declared he be reinstated and had this to say. **"It is also significant that the group which the grievant joined was ultimately led by Thomas Robb..had shunned violence and illegal activity...the record shows no act of violence or criminal activity even alleged let alone proved against the group the grievant joined, The Knights Party...The arbitrator is perplexed that the agency did not copy more of the Knights Party website...if the website was filled with content that was objectionable."**

The Knights Party sends out a message of hope and deliverance to white people throughout the world. In each country, we encourage white people to have pride in their own nation and at the same time work for worldwide white racial unity!

In America, associates of *The Knights* stand upon the following principles:

- **The Family:** We believe the strength of any nation must be based upon family units, commonly called the traditional family – led by strong God fearing men and women.
- **America First:** First before any foreign influence or interest.
- **The Constitution:** as originally written and intended – the finest system of government ever conceived by mankind.
- **Free Enterprise:** Private property and ownership of business, but an end to the high-finance exploitation that has put all races under the grip of a world wide banking system.
- **Positive Christianity:** The right of the people to practice their Christian faith without interference.
- **The White Race:** The irreplaceable hub of our nation, our faith, and the high levels of western culture and technology.

STOP White GENOCIDE

The global white population is approximately 9%. White children in the U.S. Are already in the minority. Unprecedented demographic shifts are about to occur and coincide with the Geneva Convention's definition of genocide.
