

After the cannon fell silent and peace descended upon the battlefields of the War Between the States,

there came an infamous chapter of American history called "The Reconstruction". From this era- this abyss of human misery and despair there arose like the morning sun the Ku Klux Klan. The KKK movement provided for the people of the South the leadership and rallying point to begin their arduous struggle to regain their lost dignity and indeed, the values of western Civilization and all members were required to support the Constitution. Today, Northerners and Southerners recognize that we have strayed from the dreams of our founders; the dreams that inspired the flag above!

The glorious ride of the Ku Klux Klan of the Reconstruction era is immortalized by its achievements. No misrepresentations by prejudiced historians or by misguided members of America's mass media can dim the luster of its deeds or rob it of it's rightful place in history as the savior of the South and thereby, the preserver of the purity of the White race for all of America!

The Knights Party keeps alive the memory of the original Klansmen and the principles and traditions for which they risked their lives. While there is no single Klan organization today that can rightfully claim to be part of the original, The Knights Party, headquartered in Harrison, Arkansas feels it has captured the heart, spirit, dignity and honor of those early Klansmen and their families who assisted them – in their endeavors to bring law, order, and justice to the South so that all could live peaceful lives.

STATE'S RIGHTS - RELEVANT TODAY!

We are not Southern Secession advocates and we are not trying to relive the war. In fact, we recognize that there were thousands living in the North and Westward pioneers whose sole concern regarding slavery was its negative influence on wages and white families, much in the same way non-white immigration has a negative impact now. Still, state's rights is a powerful issue and one that must be carefully considered in light of the steady encroachments upon our liberties by the Federal Establishment.

Since When Has the Liberal Media Been Truthful? Have THEY been Honest About Our Cause?

Why a KKK Organization?

Sometimes a person who says that he or she believes in our principles will ask why we don't change the name of our movement.

Here are a few reasons why: It is a matter of principle. We believe in the Ku Klux Klan. We believe that the founders of the Ku Klux Klan were led by divine providence and that once again just like the Klan saved the white race during "Reconstruction" it will arise like the great phoenix – to bring our people back from the brink of destruction.

It is a tactical asset. The controversial nature of the KKK attracts tremendous interest. No one can respond to a cause if he or she has never heard about it. Those who may be inclined to suggest that we no longer remain Ku Klux Klan should note that, directly or indirectly, they probably wouldn't be reading these lines right now if not for the name.

Did you know that our nat'l dir. Thomas Robb is an ordained minister and he along with his wife Muriel, have been actively working on behalf of Western Christian Civilization for almost 50 years. Both are graduates of SOTC College (Colorado) Pastor Robb went on to earn his doctorate through private tutelage.

The Knights and Christianity

The Knights concedes the right of every citizen to worship Jesus Christ as he sees fit, and will not tolerate denominational dissension. All White Christians must unite and work together against those who wish to utterly destroy the Christian faith. Catholics as well as Protestants, who believe in our goal of White Christian Revival, are eligible to associate with *The Knights*. Won't you stand up today! Future generations are counting on you and as Christians it is our duty to witness to our white brothers and sisters.

Self-Determination

We believe in self-determination for all people. We believe that the best minds of all people should work together for the advancement and development of their own people without being hindered by another racial group. The Bible commands us to respect the boundaries of every nation and race to insure worldwide peace and harmony.

No, we are not the enemies of the black man, the brown man, the red man, or the yellow man. Rather it is those who attempt to artificially force the different races together that are the enemies of all. The stupidity of those who cry "diversity, diversity" and then turn around and cry, "thou shall integrate" is becoming more evident each and every day. They themselves just can't see the obvious.

However, while the social engineers are busy at work wreaking havoc on America's social fabric, the common man and woman are restless. Certainly, many of these "do-gooders" are well meaning. But, by ignoring the laws given to us in the Bible and choosing for themselves what is right or wrong, they are slowly destroying the beautiful world that God gave to us all. These social engineers with their "situation ethics" have taken over both parties. Many continue to claim faith in their party, but their mind is full of doubt. From the 5th generation farmer in Nebraska who is sick about the homosexual direction of the Democrats to the young mother in New Jersey who worries about the one world agenda of the Republicans, Americans want an alternative. What will they find in their quest? Will it be hope or oppression? The answer lies with us - those who really care about them and their families. We can either turn our backs on them, by essentially doing nothing or we can sound an alarm.

Consider This: Why is immigration only being encouraged into white countries?

Why Only encourage integration in white areas and not non-white areas? And what is the overall cost to the taxpayers in money and crime?
